The Paul H. Baermann Seed Co.
504 VLIET STREET MILWAUKEE, WIS.

Our Tenth Anniversary!

After serving the leading Market Gardeners and Florists around Milwaukee for the past ten years, we take this opportunity to thank them for their patronage and present our annual price list.

Mr. Paul H. Baermann's thirty-four years experience in the seed business enables us to secure the best varieties from seed growers with the highest reputation for **QUALITY**, both in this country and abroad.

Realizing the importance to a grower in getting the very best quality, highest germination and vitality and true to name seeds, we do not attempt to compete in price with inferior stocks offered by some firms under the same name, for any gardener can understand that the cost of raising a field of carefully rogued and selected seeds is greater than a field of cheaper seeds not requiring as much attention. Naturally the seed growers pricers to us are a bit higher for the better stocks. You will find our prices very reasonable, however, for the quality of seed offered.

The first cost of seed is but a small item compared to the cost of land, labor, time and all other attentions a crop needs before maturity. If the crop is not as good as it should be and the seed is at fault, you can readily see that the small difference in the first cost of the seed is only a very small part of the loss sustained.

The most important factor to a gardener or florist is that the seed he has planted should **GROW** and it certainly would be a big aid to him to know just what **PERCENTAGE** grows. **WE TEST EVERY ITEM** in our stock for germination before our orders are filled and we have the actual tests to show for reference at any time.

Many new varieties and improvements and selections on old strains are listed this year which every gardener and florist ought to try and which may prove real money makers because of their earliness or other good qualities. These new varieties with only a few exceptions were tried out in field tests a year before offering them to the trade as better stocks. **NEW STOCKS AND THE BETTER VARIETIES ARE PRINTED IN HEAVIER TYPE IN THIS LIST.**

TESTED SEEDS

All orders taken previous to the issuing of this list, if some of the prices are higher, will be lowered wherever possible to meet prices in this catalogue. This list cancels all previous prices.

Write all orders on blank enclosed and use envelope, writing your return address thereon. We will send all orders of reasonable weight for Garden and Flower seed by Parcel Post, the postage charges paid by us (except Beans, Sweet Corn and Peas.)

Seamless Cotton Bags charged extra at cost where required for packing or shipping.

As customary with all American seed houses we can not GUARANTEE results or crops, due to poor weather conditions, improper care at time of planting or cultivation, damage done by insect pests, and all other causes beyond our control.

NON WARRANTY—"We give no warranty express or implied as to description, quality, productiveness, or any other matter of any Seeds, Bulbs or Plants we send out and will not in any way be responsible for the crop."

Although if there is any cause for complaint, we will determine the cause and replace the seed free of charge if it is at fault.

SELECT FLOWER SEEDS

We handle the best varieties of Flower seed only, which are true to name and of highest germination. Our seed is grown for us by specialists in this line both in this country and abroad.

Note—Flower Seed in this list will be marked as follows:

Perennials—(P.)

Biennials—(B.)

Greenhouse Plants—(G.)

Climbers—(C.)

Annuals will not be marked.

All Lithographed made up packets 5c. NO FLOWER SEED WEIGHED UP FROM BULK LESS THAN 10c.

IMPORTANT!

We have discontinued Trade Packets on practically all varieties and listing smaller weights instead. We believe this will be better and less confusing to the customer. **Please order by weight wherever possible**, from 1/256 part of an ounce (for the very high priced seed) and up, even if smaller weights are not listed in this book.

TESTED FLOWER SEEDS

GIANT DOUBLE DAHLIA FLOWERED ZINNIAS

This new type of Zinnia should not be confused with the inferior and low priced imported seed offered by some seed houses under same name. Our seed is procured from the California originator of this new type.

A new improvement on all types of Zinnias, which can best be described by saying they resemble Dahlias. Every florist and gardener should try this new type which we offer in the following colors:

	$\frac{1}{16}$ oz.	$\frac{1}{4}$ oz.	1 oz.
